**Storm Drain Mural Project – Selection Process**

Artists have been assigned identification numbers 1 through 7. Each artist submitted at least one proposal, with some artists submitting multiple designs with specific storm drain locations listed while others have no location specified. Every submission is labeled with a corresponding artist number (1–7) and submission letter (A–E) to clearly identify both the artist and the individual proposal.

Please review all submissions and rank your selections in order of preference for each location listed below. Final selections will be discussed and determined by committee vote at an upcoming Public Art Committee meeting.
