MEMORANDUM

To: Planning and Zoning Board

From: Renea Vincent, AICP, CPM, Planning and Zoning Director

Date: December 9, 2024

Subject: **Review of Land Development Code Amendment –
Neighborhood Conservation Overlay District**

Background:

The City is currently engaged in the following neighborhood planning efforts in the Greektown Community and the Union Academy Neighborhood areas of the City:

- “Greektown Traditional Cultural Property” Preservation and Placemaking Plan (recently completed)
- Union Academy Cultural Resource Survey (recently completed)
- Central Tarpon Springs Potential Community Redevelopment Area

As part of community engagement conducted during these planning efforts, a neighborhood conservation overlay tool has been discussed as a mechanism for retention of neighborhood character. A neighborhood conservation overlay (NCO) is a land use tool that offers communities the ability to tailor the management of community character to the needs of specific areas and neighborhood residents, as opposed to the one-size-fits-all approach of a traditional historic preservation ordinance.

Staff has communicated with interested stakeholders through the drafting process. The draft ordinance was also reviewed and edited by Tom Scofield (Pinellas County Historic Preservation Specialist). The City’s Planning and Zoning Board has held two discussion sessions and the Board of Commissioners held one discussion item, on the draft ordinance. The ordinance has been advertised for public review by the Heritage Preservation Board and for public hearing before the Planning and Zoning Board (December 16, 2024) and the Board of Commissioners (January 7 and January 21, 2025). The Heritage Preservation Board reviewed the ordinance on November 4 and December 2, 2024.

Summary of Draft Neighborhood Conservation Overlay District Ordinance

The City already has a mechanism and process for the designation of a traditional historic district (Land Development Code Article VII, Section 108.00). Staff proposes to amend Article VII with a new code section (118.00 NCO Neighborhood Overlay Conservation District) that utilizes and references existing processes already established in Article VII of

the Land Development Code. Two new Tables are also added to the proposed Section 118.00:

- Exhibit B, Certificate of Appropriateness Reference Chart
- Exhibit C, CA Requirements by District

As currently proposed, the activities to be regulated (Exhibit B) are limited to demolition, new primary and accessory structures, and additions, but can be amended as necessary to capture additional activities whenever a new district is established. Exhibit C identifies which specific activities from Exhibit B shall apply within an adopted overlay area.

Additional updates:

- A Petition for Designation may be submitted by 51% of the land area as indicated by a vote of the property owners.
- Nomenclature and definitions are updated for internal consistency and state and national terminology
- Edits for clarity

Citizen Comment Received at Heritage Preservation Board Meetings

The Heritage Preservation Board received public comment on the draft ordinance on November 4 and December 5, 2024:

Tina Bucuvalas provided written comments (11/4/2024). Those comments along with staff feedback are included with this agenda packet.

Cyndi Tarapani provided the following verbal comments (11/4/2024, paraphrased below). Staff feedback is provided in red font:

- Create two separate sections one for the current historic district and one for the new Neighborhood Conservation Overlay District.
Since the ordinance is proposed to use very similar procedures for the new Neighborhood Conservation Overlay Districts, it is felt that the draft ordinance is more concise, clear and simplified in the current proposed format. The integrity of the designations themselves is preserved apart from the procedures being used to carry out their implementation.
- Landowner consent is not required to establish a district.
Staff recognizes this. The ordinance does not require landowner consent to establish a district. It does require evidence of landowner support to bring a petition forward.
- Cultural resources cannot be regulated.
Acknowledged.
- Section 111.0(D) requires a mailed notice radius of 200 feet for appeals. The radius should be 500 feet.
Staff agrees that this section was likely missed in the past when the mailed notice radius distances were revised throughout the Land Development Code from 200 feet to 500

feet (Ordinance 2019-08 adopted on 5/14/2019). Staff concurs with amending this section to a 500-foot mailing radius. The draft ordinance has been updated to reflect the proposed change (see page 12 of 24).

- Suggests that NCO standards and/or guidelines be adopted with the NCO itself when it is designated and adopted.

Staff concurs and has written this draft ordinance to provide the platform for this.

Cyndi Tarapani provided additional written comments (12/2/2024). Those comments are included with this agenda packet.

Georgianna Frantzis suggested that staff provide the meeting dates during which the draft ordinance was discussed by the Planning and Zoning Board and by the Board of Commissioners. Those discussions are available on the City's YouTube channel at the following time-stamped links:

Citizen Comment Received at Heritage Preservation Board Meetings

The Heritage Preservation Board (HPB), at their meeting of December 5, 2024, voted to recommend that the Board of Commissioners approve the draft amendment to the Land Development Code, Article VII – Heritage Preservation (attached) with the following revision:

Section 108.00(C)(2) A petition may be submitted by a member of the Heritage Preservation Board, the owner of record of the nominated property or structure, 51% of the land area as indicated by a vote of the affected property owners for a district designation, the Board of Commissioners, or the City Planning and Zoning Department.

The HPB desired to remove the proposed “land area” language from the above section and make it consistent with the proposed language of Section 108.00(D)(6) which states:

“Evidence of support from at least 51% of the affected property owners for a district designation.”

Recommendation: Conduct the public hearing on the draft amendment to the Land Development Code, Article VII – Heritage Preservation (attached). Provide a recommendation to the Board of Commissioners to approve, approve with revisions, or deny the draft ordinance.

§ 109.01 Standards for Review.

Repair or replacement of missing architectural features such as windows, mullions, doors, entries, ~~hand rails~~ hand rails, etc., should be based on accurate duplications, substantiated by historic, physical or pictorial evidence rather than on conjectural designs or the availability of different architectural elements from other buildings or structures.
- (3) The relationship of a structure within a ~~locally designated historic or cultural preservation~~ district to the open space between it and the street and to other buildings or scenic views, vistas or streetscapes characterizing the area, shall be protected through a site plan review process addressing setbacks, roof lines, garage placement, parking and access analysis and the use of landscaping.

USEABLE SPACE means that portion of the space within a building which is available for assignment or rental to an occupant, including every type of space available for use of the occupant.

(D) *Ad valorem tax exemption for historic properties.* A qualifying property that has completed a qualifying improvement may be granted an exemption from that portion of the ad valorem taxation levied by the City on 100 percent of the assessed value of the qualifying improvement. This exemption shall not be allowed for that portion of the assessed value of a qualifying improvement which exceeds \$100,000.00 for residential properties and \$200,000.00 for commercial properties, unless the Board of Commissioners, after hearing the evidence and testimony of the applicant and City Staff, finds:

- (1) That the qualifying property is of great significance based on the criteria met for historic designation and the historic significance, value, character and contribution of the property. That the additional exemption is necessary to save the property from destruction and to ensure the rehabilitation, renovation or restoration of the property; or
- (2) That the additional exemption is necessary to meet City, state or federal building code requirements to ensure the rehabilitation, renovation or restoration of the property.
- (3) This exemption shall not apply to taxes levied for the payment of bonds or to taxes authorized by a vote of electors pursuant to s. 9(b) or s. 12, Article VII of the State Constitution.

(E) *Ad valorem tax exemption period.* Any exemption granted shall remain in effect for up to ten years, with the effective date being January 1 of the year following substantial completion of the qualifying improvement. The exemption shall continue in force if the authority of the City to grant exemptions changes or if ownership of the property changes (including any change from a tax exempt entity to a tax paying entity except as set forth in the following subsection).

(F) *Application Process.*

- (1) *Preconstruction Application.* Consideration of the exemption shall be initiated by the filing of a preconstruction application by the property owner on the form provided by the City prior to the initiation of any work on a qualifying improvement. Qualifying improvements or any portion thereof initiated prior to approval of the preconstruction application shall not be eligible for the exemption.
 - a. The property owner shall also simultaneously apply for a ~~Certificate of Approval~~Certificate of Appropriateness review in accordance with this Article. The proposed cost of the qualifying improvement based on a licensed contractor's price estimates or other City approved cost estimate method, and a copy of the most recent tax assessment and bill for the property shall be included with the application.

- b. The TRC or HPB, as appropriate, shall review and approve or deny the preconstruction application and ~~Certificate of Approval~~[Certificate of Appropriateness](#) and shall follow the review and appeal procedures for a ~~Certificate of Approval~~[Certificate of Appropriateness](#). The property owner shall be notified in writing of the approval, approval with conditions, or denial of the ~~Certificate of Approval~~[Certificate of Appropriateness](#) and (1) whether the proposed work is a qualifying improvement; (2) whether the work, as proposed, is consistent with the criteria for the certificate of appropriateness and the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings (Revised 1990) U.S. Department of Interior, National Park Service and FAC 1A-38 and any additional criteria required by the codes and ordinances of the City; and (3) making recommendations for correction of work which is not consistent with the foregoing.
 - c. Any changes made to the qualifying improvement after approval of the preconstruction application must receive prior approval by the TRC or HPB, as appropriate to ensure compliance with the criteria set forth herein. Failure to obtain prior approval may result in denial of the exemption.
 - d. The property owner must complete the qualifying improvement within two years following the date of approval of a preconstruction application. A preconstruction Application approval shall automatically be revoked if the property owner has not submitted a request for review of completed work within two years following the date of approval of a preconstruction application. The TRC may grant an extension to this provision for up to six months if such request is made in writing prior to the expiration of the initial period. Any other extensions must be approved by the HPB and shall require a public hearing and notification as set forth for a ~~Certificate of Approval~~[Certificate of Appropriateness](#) determination.
- (2) *Request for Review of Completed Work.* A request for review of completed Work shall be submitted to the Development Services Department ("Department") upon completion of the qualifying improvement and shall include documentation acceptable to the City showing the total cost of the qualifying improvement. Appropriate documentation may include paid contractor's bills, canceled checks, an approved building permit application listing cost of work to be performed and any other information required by the Department. The Department may inspect the qualifying improvement to determine compliance with this section. Within 21 days following submission of a properly completed request for review of completed work, the Department shall recommend that the Board of Commissioners grant or deny the exemption and shall notify the property owner in writing of the recommendation and the date which the Board of Commissioners shall consider the exemption.
- a. If the completed qualifying improvement complies with the requirements set forth in the preconstruction application approval, this section, the ~~certificate of approval~~[Certificate of Appropriateness](#), the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings and any additional conditions required by the TRC or HPB then the Department shall recommend that Board of Commissioners grant the exemption.
 - b. If the completed qualifying improvement does not comply with the requirements of subsection a, then the Department shall provide a written summary of the reasons for that determination, including recommendations to the property owner concerning changes to the proposed work necessary to comply and shall recommend that Board of Commissioners deny the exemption.
 - c. If the property owner is notified that the improvement does not comply with the requirements of subsection a., the property owner shall have ten days from the date of the Department's notification to respond in writing describing the specific actions to be taken by the property owner to comply. If the Department receives a written response within ten days, the property owner shall have 60 days to comply with the requirements of subsection a. The Department may grant an extension to this provision for up to an additional 30 days if such request is made prior to the expiration of the initial period. At the end of this period and any extension thereof the

Department shall review the qualifying improvement and make a recommendation to Board of Commissioners to grant or deny the exemption.

- (3) *Historic Preservation Property Tax Exemption Covenant.* A covenant in the form approved by the City Attorney must be executed by the property owner for the term of the exemption before an exemption is approved by the Board of Commissioners. The covenant shall provide that the property owner shall maintain and repair the property, and qualifying improvements to the property, so as to preserve and maintain the historic architectural qualities or historical, cultural, or archaeological integrity of the qualifying property for which an exemption was granted. If the exemption is granted, the property owner shall have the covenant recorded with the deed for the property in the official records of Pinellas County prior to the effective date of the exemption which shall be binding on the property owner, transferees, and their heirs, successors or assigns.

The applicant shall provide a certified copy of the recorded covenant to the Department within 45 days of the Board of Commissioners' approval of the exemption or said approval by the Board of Commissioners shall be void.

If the property changes ownership during the exemption period the requirements of the covenant must be transferred to the new owner.

Violation of the covenant shall result in the property owner being subject to the payment of the differences between the total amount of taxes which would have been due in March in each of the previous years in which the covenant was in effect had the property not received the exemption and the total amount of taxes actually paid in those years, plus interest on the difference calculated.

- (4) *Board of Commissioners Review and Approval of the Request for Review for Completion of Work.* The Board of Commissioners shall approve, modify, defer or deny the exemption by resolution within 30 days of the Department's recommendation. If approved the resolution shall include but not be limited to the following: the period of time the exemption shall be in effect and the expiration date of that period, approval of the covenant, any conditions of approval, the name of the owner and address of the property for which the exemption is granted and a finding that the property meets the requirements of F.S. § 196.1997. Said approval shall be conditioned upon receipt by the Department of a certified copy of the recorded covenant.
- (5) *Amendments.* All amendments to the approved application and permit plans must be reviewed and approved prior to the completion of the project. Minor amendments to permit plans may be approved by the Director of the Planning and Zoning Division, or designee, provided that such amendments are consistent with the certificate of appropriateness criteria of the City Code. Major amendments to the approved plans must be reviewed and approved by the Heritage Preservation Board.
- (6) *Reapplication.* A property owner previously granted an exemption may undertake additional qualifying improvements during this period or apply for additional exemptions for qualifying improvements following its expiration. A property owner may not reapply for an exemption for a qualifying improvement which has been denied by the Board of Commissioners.
- (7) *Notice to Property Appraiser.* Within ten business days following receipt of a certified copy of the recorded covenant, the Department shall transmit a copy of the approved Request for review of completed Work to the Pinellas County Property Appraiser. The property appraiser shall implement the exemption.
- (8) *Revocation Proceedings.* The Director of the Planning and Zoning Division or designee may initiate proceedings to revoke the historic tax exemption in the event that the applicant of any subsequent owner or successor in interest to the property fails to maintain the property according to the terms, conditions and standards of the historic preservation exemption covenant. The Heritage Preservation Board shall provide notice to the current owner of record of the property and hold a hearing in the same manner as in the certificate of review specified under the Heritage Preservation Ordinance, and make a recommendation to the Board of Commissioners. The Board of Commissioners shall then hold a

public hearing and determine whether or not the exemption shall be revoked. The Board of Commissioners may revoke an exemption at any time in the event that the property owner, or any subsequent owner or successor in interest to the property does any of the following: violates the historic preservation covenant; fails to maintain the qualifying property according to the terms, conditions and standards of the historic preservation covenant; fails to maintain the historic character of the property and improvements which qualified the property for the exemption; or the qualifying property has been damaged by accidental or natural causes to the extent that the historic integrity of the features, materials, appearances, workmanship and environment, or cultural or archeological integrity which made it eligible for listing or designation have been lost or damaged so that restoration is not possible.

- (9) *Notice of revocation.* Upon a determination by the Commission that the historic rehabilitation tax exemption shall be revoked, the Director of the Planning and Zoning Division or designee shall provide written notice of the decision to the owner of record. The notice to the owner of record shall be accompanied by reasons and recommendations for changes to the property that may result in reinstatement of the exemption. The owner shall be given 35 calendar days from the date mailing the notice by the City to qualify for re-instatement. After 35 days, if no good-faith attempt has been made to qualify the property for re-instatement, notice of revocation shall be sent to the Pinellas County Property Appraiser.
- (10) *Reinstatement.* A property may be reinstated for the historic rehabilitation tax exemption upon satisfactory submission of evidence that the recommendations for changes to the property previously made by the Director of the Planning and Zoning Division have been completed. The process of reinstatement shall be the same as the review of the final application. Upon completion of the reinstatement process, the Director of the Planning and Zoning Division or designee shall notify the property appraiser. The historic rehabilitation tax exemption shall only be reinstated for the remaining unexpired term of the initial exemption period.
- (11) *Property inspection.* As a condition of receiving the tax exemption described in this Article the owner shall allow reasonable inspections of the exterior and interior of buildings located on the subject property by a city building inspector. The City shall send a certified letter of the intended date of inspection and the owner shall cooperate and if the date is inconvenient shall offer a series of other acceptable dates not more than one month later than the original date offered by the City in the certified letter. The City shall then choose one of the dates proposed by the owner and inform the owner of the date in writing by certified letter. If any certified letter sent pursuant to this subsection is not acknowledged by the owner the City may notice the owner by posting the property for a period of 5 working days prior to inspection. The purpose of these inspections is to insure that the subject property is not suffering likely demolition by neglect. The inspections shall take place no more frequently than once a year per property unless the City has reason to believe that the property is in imminent danger of demolition by neglect, and in that case the City may re-inspect the property pursuant to the procedures set forth in this subsection even if an inspection has occurred within the previous 12-month period.

Re: Suggested changes to the ordinances draft
Date: November 4, 2024

The Planning and Zoning Department's current draft Review of Land Development Code Amendment – Neighborhood Conservation Overlay District is a thorough and excellent effort. But as in all things, there is always room for improvement—and there are several places that would benefit from minor revisions. In some cases, this would reinstate items that appeared in an earlier draft; they deserve further scrutiny because they provide extra protections, allow more mechanisms for action, or otherwise better serve the community. Below are comments that I prepared about the ordinance draft that appeared in the HPB packet for the November 3, 2024 meeting. My comments appear in italics, while the language in the ordinances is in regular or bold type face.

I am also attaching the April 2024 draft of the ordinances, so that you can view that exact language and placement.

Staff Memo: cites "...planning efforts in the Sponge Docks/Hope-Athens Community...: *At their 8/20 meeting, the BOC directed P&Z to refer to Greektown rather than Hope-Athens. Hope-Athens does not describe the district, which stretches from the Sponge Docks to Tarpon Avenue/ Spring Bayou, Pinellas to Roosevelt—as approved by the HPB and BOC in 12/13. It is a regular historic district, with an added overlay of significance in terms of traditional culture. In the future, I hope to see the official name according to US and state governments, the Greektown Historic District.*

The staff memorandum has been revised to refer to Greektown.

106.01 A. Historic Districts:

(2) Non-locally designated Historic Districts are those that have been officially recognized and listed on the National Register of Historic Places as endorsed by the State Historic Preservation Office but have not received local designation and are not subject to regulations of Sections 108.00-115.00.

Reinstate 106.01.2 from the 4/24 draft: *The City should acknowledge non-locally designated historic districts because one has existed for over a decade—federal and state governments recognize the Greektown Historic District; thus the City needs to officially define non-locally designated historic districts, regardless of how it decides to locally designate/regulate the Greektown Historic District.*

The above section acknowledges districts "that have been officially recognized..." The statement acknowledges federal recognition ["...listed on the National Register of Historic Places..."] and state recognition ["...endorsed by the State Historic Preservation Office..."].

106.01 B. Neighborhood Conservation Overlay Districts...

- (3) Ensure new construction is consistent with the established identity of the District;
Change to: Ensure new construction **and exterior building renovations** are consistent...

Including exterior building renovations is important to ensure consistency with District integrity. I have seen egregious examples when this was not followed: Santa Fe NM, where wooden Victorians were stuccoed over to simulate pueblo architecture that was never part of the city building tradition. In TS historic buildings are local variations of Florida vernacular architecture; except for St. Nicholas, some sponge boats or outdoor ovens, Greek regional architecture is not part of our architectural heritage.

Staff agrees that exterior renovations may be important in the context of individual Neighborhood Conservation Overlay Districts. The full sentence of proposed Section 106.01(B)3 states “Ensure new construction is consistent with the established identity of the Conservation Overlay District.” As each Neighborhood Conservation Overlay (NCO) is established, that will be the time to explore whether exterior renovations are relevant and, if so, to establish any standards and/or guidelines. This sentence clearly covers that intent wherever the community wishes to exercise it. This draft amendment, as a whole, provides a clear and simple framework that can be updated as each new NCO is incorporated into Article VII.

108.(C) (2) A petition may be submitted by an HPB member, the owner, 51% of the land area as indicated by a vote of property owners for a district designation, the BOC, or the City P&Z Dept.

Changed from 4/24 draft: (2)...the City P&Z Dept, or a non-profit, civic organization.
There are problems in this section that could negatively affect future designations:

- The 51% clause assumes 100% participation by property owners. To understand realistic rates of participation, check local elections. According to County data, in Tarpon’s March 2023 municipal election, only 14.4% voted. In 11/20, 78.1% voted in a presidential election—generally the highest turnout. It is absurd to base an ordinance on the overtly false assumption of 100% participation. Possible alternatives include: notifying property owners by mail, publication in newspaper, city announcements/Facebook Page. After notifications, Boards hold public hearings.*

Feedback from the public and past ordinance discussions with the Planning and Zoning Board and the Board of Commissioners have generated a significant and repeated comment regarding the demonstration of the desire of property owners to support a Neighborhood Conservation Overlay District designation. Because this was a repeated sentiment, staff felt that the draft ordinance should include an opportunity for landowners to propose a Neighborhood Conservation Overlay District for land that they own (similar to a single landowner’s ability to propose a landmark designation). Regarding the logistics, a 100% participation rate is not required to obtain feedback from 51%. Staff is confident that there are practical methods to definitively measure support for a district, as evidenced by the recent process in St. Petersburg to designate the Mirror Lake Historic District. Also, it is important to keep in mind that a proposal by 51% of the land area ownership does not obligate the Board of Commissioners to establish an NCO district.

- The City has implied the inclusion of non-profit organizations as petitioners in Comp Plan section HIS 1.3.2: “Encourage the development of community-driven plans for*

historic districts to guide future preservation and complimentary development.” More specifically, it appears that the earlier reference to a non-profit in this section was rescinded because P&Z assumed that a non-profit had nominated the Greektown District to the NR; in fact, it was the City’s Cultural Services Dept. who developed it and brought it to the HPB and BOC in 12/13.

Feedback from the Planning and Zoning Board indicated that the ability for private citizens to nominate a district should not be limited to one private organization category. Citizens and private organizations can certainly coordinate with the City staff, the Heritage Preservation Board, or the Board of Commissioners to ask that an NCO designation be brought forward for consideration. They can also coordinate 51% of the landowners in the proposed NCO area to put forth a petition.

108.D (6) ...support from at least 51% of affected property owners for a district designation...

Again, the 51% clause erroneously assumes 100% participation—has this ever happened? But including the other entities could counteract this problem.

Please revert to the 4/24 draft that specifies, “support from at least 51% of affected property owners for a district designation unless waived by the BOC, or if the nomination is submitted by the BOC, P&Z Dept, or a non-profit, civic organization.”

A 100% participation rate is not required to obtain feedback from 51%. Staff is confident that there are practical methods to definitively measure support for a district.

Section 118.00 NCO Neighborhood Conservation Overlay District.

118.01 Purpose. ...to preserve significant historical, cultural, or architectural assets from demolition, encourage adaptive re-use of existing structures, promote consistent development patterns.

This does not effectively protect district heritage and integrity if it specifies only demolition and does not deal with alterations to existing structures—as seen in previous examples, these can destroy district identity and integrity.

Change to: ... preserve significant historical, cultural, or architectural assets from demolition, encourage adaptive re-use of existing structures, **ensure that new construction and exterior building renovations are consistent with the district’s integrity and established identity**, and promote consistent development patterns.

The intent statements “encourage adaptive re-use” and “promote consistent development patterns,” both provide for the inclusion of exterior building renovations, as desired, in a Neighborhood Conservation District.

118.03. Certificates of Appropriateness.

(A) A CA may be required for the following activities within a NCO District (Exhibit B):

Add category to construction activity: alterations to existing structure/specific items

This category can be added to the table if/when a Neighborhood Conservation Overlay District that regulates this category is established. The purpose of the current ordinance revision and this table is to provide a draft framework of the very basic categories (new construction and demolition) at this point. As new NCOs are established, additional relevant categories can be added as needed.

MEMORANDUM

TO: Heritage Preservation Board Members
Caroline Lanford, Planning Department
Patricia McNeese, Planning Department

FROM: Cyndi Tarapani, Tarapani Planning Strategies

SUBJECT: Proposed Revisions to the Historic Preservation Ordinance

DATE: December 2, 2024

Thank you for the opportunity to review the proposed revisions to the Historic Preservation Ordinance that is scheduled for review by the Heritage Preservation Board on December 2, 2024. I also appreciate the consideration of my previous comments provided at the November, 2024 HPB Meeting. I have reviewed the draft ordinance and suggest the following revisions:

1. Page 6, Section 108.00 (C) (2) and (D) (6). The new language in these two subsections would require support from at least 51% of the affected property owners in a district for an application to designate the district or landmark. With regard to a historic district, I don't think this is necessary or proper since the integrity of the historic structures has already been determined by a survey prepared by a historic preservation professional. Since there are noncontributing structures and vacant properties within a historic district, this provision could operate to prevent the creation of a historic district even if all of the contributing structure owners are in agreement to do so.

With regard to the 51% owner consent in a future Neighborhood Conservation Overlay District, that is a decision to be made by the property owners in that future NCO District, and since I don't own property within a future NCO, I will not weigh in on the merits of this issue.

I would note that if some kind of owner consent is required for a NCO, it needs to be clearly defined in the ordinance how the vote is determined, i.e., does an owner get a vote for each individual Property Appraiser Parcel that he/ she owns? What if there are two owners for a parcel, do each of them get a vote? How does the vote take place? If a Petition is used to confirm a vote, I have seen that process result in many problems, inaccuracies and unintended consequences.

My Recommendation: Delete the requirement for 51% owner consent for Historic District designations.

2. Page 14, Section 111.00 (D) Appeals. The notice distance for an appeal should be the same as for an original application.

My Recommendation: Change the notice distance in subsection (D) from 200 feet to 500 feet.

Thank you for considering my suggestions.
